CDR Pads

CDR™ Pads ~ The Complete Debris Removal Pad safely & effectively loosens dirt and debris by breaking up trapped in soils and lifting them from the surface. The CDR™ Pad is non-metallic, non-woven material which will not increase gloss levels. On aircraft surfaces where it has been extremely difficult to achieve results, the CDR™ Pad obtains superior results with minimal effort. The CDR™ Pad features melamine, a soft blue replacement indicator and loop side of hook and loop that can be utilized with existing applicators. Approved by the US Air Force under T. O. 1-1-691, Page A-2 Table A-2, Item 39. Available in 3 sizes

Size	Part #	NSN#	QTY
XL	CDR61262 (6"X12")	7920-01-526-9003	Ctn 50
LG	CDR51965 (5"X10")	7920-01-526-9007	Ctn 100
SM	CDR71962 (3.5"X5")	7920-01-526-9015	Ctn 200

3M Conformable Applicator #261

3M Conformable Applicator #261 ~ This conformable cleaning head comes with a universal joint that easily attaches to our extension poles.
